

The distress among the Poor here and
in the manufacturing districts, is great
and I fear on the increase. The Federalist
boast a great victory in Ten after 1500 Prisoners
300 slain on each side, much ammunition taken
monster meetings to rejoice do not write in reply
which is always a trouble when on the move
that you have favorable weather & are enjoying
yourself is very welcome news. your Mother
desires her dear love to Emily and yourself
says she would write but does not feel must
up to it - perhaps you may be the case with
others besides her, your affectionate Father
